

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1. (Currently Amended) A polytrimethylene terephthalate reinforced resin composition comprising 100 parts by weight of resin components consisting of ~~99.9 to 50~~ ~~97.2 to 70~~ parts by weight of a polytrimethylene terephthalate resin (A1), ~~0 to 49.9 parts by weight of a thermoplastic resin~~ ~~2.5 to 29.7 parts by weight of a polycarbonate resin~~ (A2) and ~~0.1 to 20~~ ~~0.3 to 10~~ parts by weight of an epoxy resin (B), and 5 to 300 parts by weight of a crystalline inorganic filler (C).

2. (Canceled)

3. (Previously Presented) The polytrimethylene terephthalate reinforced resin composition according to Claim 1, wherein the composition comprises a part of the resin components grafted on the crystalline inorganic filler in an amount from 0.01 to 5 parts by weight per 100 parts by weight of the crystalline inorganic filler.

4. (Previously Presented) The polytrimethylene terephthalate reinforced resin composition according to Claim 1, wherein the composition comprises the epoxy resin in a part of the resin components not grafted on the crystalline inorganic filler in an amount from 0.1 to 20% by weight.

5 – 6. (Canceled)

7. (Previously Presented) The polytrimethylene terephthalate reinforced resin composition according to Claim 1, wherein the crystalline inorganic filler is one or more inorganic fillers selected from the group consisting of wollastonite, talc, mica, kaolin, potassium titanate whiskers, calcium carbonate whiskers and barium sulfate.

8. (Previously Presented) The polytrimethylene terephthalate reinforced resin composition according to Claim 1, wherein the crystalline inorganic filler is wollastonite.

9. (Previously Presented) The polytrimethylene terephthalate reinforced resin composition according to Claim 1, further comprising a glass fiber (D) in an amount less than the amount of the crystalline inorganic filler (C).

10. (Previously Presented) The polytrimethylene terephthalate reinforced resin composition according to of Claim 1, wherein the composition comprises a part of the resin components grafted on the crystalline inorganic filler and on the glass fiber in an amount from 0.01 to 5 parts by weight per 100 parts by weight of the total of the crystalline inorganic filler and the glass fiber.

11. (Currently Amended) The polytrimethylene terephthalate reinforced resin composition according to Claim 1, wherein the polytrimethylene terephthalate resin has an intrinsic viscosity η of 0.60 or more.

12. (Previously Presented) The polytrimethylene terephthalate reinforced resin composition according to Claim 1, wherein the epoxy resin (B) is a novolac epoxy resin.

13. (Previously Presented) The polytrimethylene terephthalate reinforced resin composition according to Claim 1, wherein the epoxy resin (B) is a novolac epoxy resin having an epoxy equivalent from 150 to 250 (/eq.).

14. (Previously Presented) The polytrimethylene terephthalate reinforced resin composition according to Claim 1, wherein the epoxy resin (B) is a bisphenol A epoxy resin.

15. (Previously Presented) The polytrimethylene terephthalate reinforced resin composition according to Claim 1, wherein the epoxy resin (B) is a bisphenol A epoxy resin having an epoxy equivalent from 600 to 3,000 (/eq.).

16. (Currently Amended) The polytrimethylene terephthalate reinforced resin composition according to Claim 1, wherein the composition is produced by melt-kneading the polytrimethylene terephthalate resin (A1), ~~the thermoplastic resin~~ the polycarbonate resin (A2) and the epoxy resin (B) and then adding the crystalline inorganic filler (C) to the melt-kneaded mixture.

17. (Previously Presented) A molded article comprising the polytrimethylene terephthalate reinforced resin composition according to Claim 1.

18. (Currently Amended) [[A]] The molded article according to claim 17, wherein the molded article is [[as]] a bath product, a washroom product, a toilet product, a kitchen product, or a sink product comprising the molded article according to Claim 17 as at least a part of constituent members thereof.

19. (Currently Amended) The molded article according to Claim 18, wherein the molded article is a washroom counter, a kitchen counter, a bathtub, a wash bowl, a hand-wash bowl, a toilet counter, or a cabinet counter top.

20. (Previously Presented) The molded article according to Claim 17, wherein a surface of the molded article has a Barcol hardness of 30 or more.
